

Whispers from the past.

Some of My Programming Projects and Work Experience

I am a passionate and results-oriented developer with a strong understanding of both web and software development principles. I have extensive experience in creating and maintaining web applications, as well as developing software solutions. My technical expertise encompasses C#, ASP.NET Core, SQL Server, PHP, MySQL, VueJS, and ReactJS.

DenaGene Tajehiz Website Development

Spring 2023
Denagen Tajhiz cellular & molecular devices.

Designed and developed a new website for DenaGene Tajehiz, serving as an e-commerce platform and news source for laboratory equipment.

PHP MySQL HTML5 CSS3 Bootstrap
JQuery Javascript VueJS

DenaGene Tajehiz Website Technical Support

About 5 months (Since November 2022)
Denagen Tajhiz cellular & molecular devices.

Provide technical support for the DenaGene Tajehiz website, showcasing laboratory products and equipment.

PHP MySQL HTML5 CSS3 Bootstrap
WordPress

Faraind Powder Website Technical Support

Ongoing (Started September 2022)
Faraind Powder

Provide ongoing technical support for Faraind Powder's website, resolving issues and adding features as requested.

PHP Laravel MySQL Bootstrap

Building Management Software (Security)

3 Months (2021)
Developed software for managing security personnel in power plants, including entry and exit tracking, attendance monitoring, and other security-related functions.

C# ASP.NET Core 6 MS SQL Server
HTML5 CSS3 Bootstrap 5 JQuery
JavaScript VueJS

Attendance and Shift Management Software

6 Months (2009-2010)

Heshmat Hospital, Rasht

Developed software to track nurses' attendance, calculate work hours, and manage shifts, enabling accurate payroll and overtime calculations.

C#Windows Forms .NETSQL Server

Explore the depths of my being

My personality is an enigma, a puzzle waiting to be solved by those who dare to look deeper.

The contours of my personality are veiled in a mist of enigma, a puzzle whose pieces are scattered across the landscape of my experiences. The surface, a tapestry of contradictions, might initially appear chaotic, yet within these seemingly disparate threads lies a narrative waiting to be deciphered. For those who dare to look beyond the superficial, a deeper truth awaits, a symphony of complexities and nuances hidden beneath layers of unspoken words. My soul is a labyrinth, its winding corridors leading to chambers of hidden emotions and forgotten dreams, a realm of paradoxes that only the truly curious will unravel.

Discover more about me:

Education

- Associate of Science in Computer Software, Poiesh Institute of Higher Education, Qom, Iran (2008-2010)
- Bachelor of Science in Computer Software, Poiesh Institute of Higher Education, Qom, Iran (2011-2014)

My Passions & Pursuits

I'm a passionate individual who balances my love for music, playing both the Kamancheh and the Setar, with a deep dedication to coding and continuous learning in the programming world

Experience and Skills

I have experience with and knowledge of the following technologies and programming languages:

Languages

- C#

- PHP
- JavaScrip
- Java
- Go
- SQL
- HTML
- CSS
- XAML

Frameworks

- C# .Net Frameworks
 - .Net Core
 - ASP.Net
 - ASP.NET MVC
 - Windows Form
 - WPF
 - Entity Framework
- PHP Frameworks
 - Laravel
 - Livewire
 - Yii
 - Wordpress template and plugin development
- JavaScript Frameworks
 - NodeJS
 - Typescript
 - AngularJS
 - JQuery
 - ReactJS
 - VueJS
 - ChartJS
 - leafletJS
 - AlpineJS

Other Technologies and frameworks

- HTML5 and CSS 3 Responsive Design
- SEO On-page Techniques
- Bootstrap

- OAuth
- Apache Server

Font-End Programming Techniques

- AJAX Programming
- JOSN-P
- PWA (Progressive web apps)
- JWT
- Push API
- Notifications API
- Service Worker API
- Storage API
- GEO Location API
- Media Stream API
- IndexedDB API

data-serialization language

- JSON
- XML
- YAML

Software Architectures

- Service-oriented architecture (SOA)
- Microservices
- RESTful API
- API design

Database

- Mysql
- Microsoft SQL Server
- MongoDB

Concepts and principles

- OOP
- SOLID
- KISS
- YANGI
- DRY
- Clean Code
